  - **Manufacturer Access accounts** for retrieve data tools
- All Additional Lists will be available to:
  - **BOMcheck Professional accounts** for declaration, supplier requests and retrieve data
  - **Manufacturer Access and Suite (Superuser) accounts** for declaration and request forwarding
  - **Supplier accounts** for declaration

Extraction = Changes to PFAS Substance Entry

- Target date: 20th May 2024

- As of BOMcheck v8.0, the current PFAS Substance Category entry in the Industry Substances List will be replaced with a new PFAS entry in the new BOMcheck PFAS List.

- The BOMcheck PFAS List will be in the new Additional Lists grouping, available for declaration in RCDs for all suppliers, available in Supplier Requests, Retrieve Data and XML/other exports for BOMcheck Professional customers only.

- All existing supplier disclosure information will be migrated to this new Substance Category and improved data linking to the underlying BOMcheck PFAS reference list will be created where possible.

Primary Lists   Additional Lists

| Industry List | Extraction → | BOMcheck PFAS List |

Only the entry for PFAS ("Per and polyfluoroalkyl substances") will be extracted to the new BOMcheck PFAS List. All other substances will remain in the Industry List.

XML

Please see accompanying example XML files for specific change details: IPC_1752_List_Structures_(May_2024).zip

Extraction = Changes to Other Legislation & Industry List

- Target date: Jan/Feb 2025

- As of BOMcheck v8.2, Other Regulated Substances and Industry Lists will be migrated to the Additional Lists grouping.

- Extraction of TSCA and POPs from the Other Regulated Substances list will remove ~10 substances to new regulatory aligned list locations.

- BOMcheck will provide a substance mapping and guidance Q4 2024.
