

Primary & Additional Lists Overview

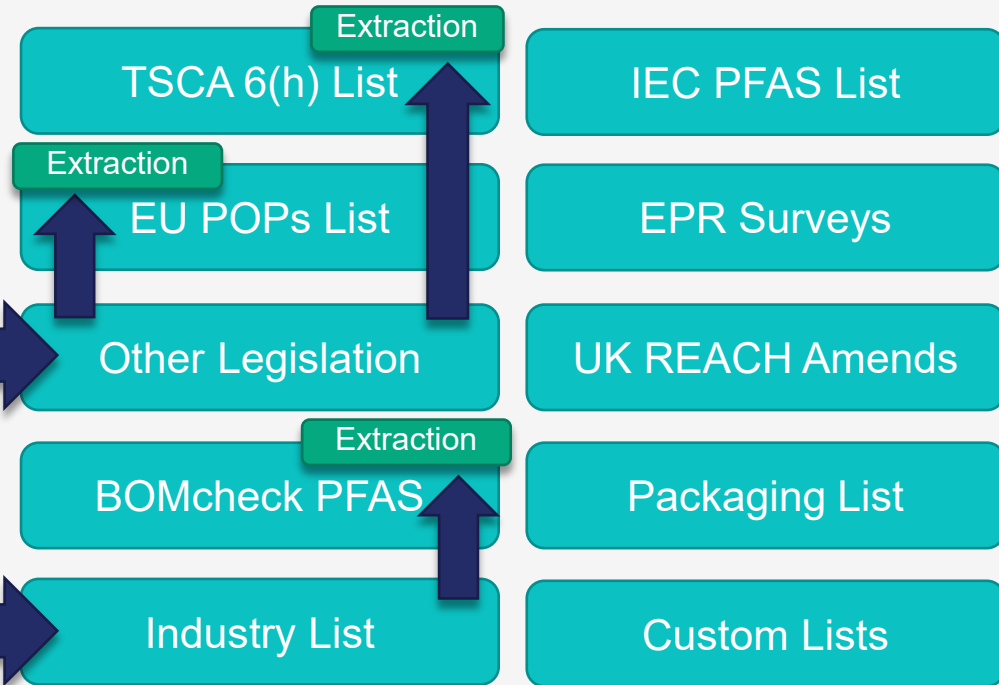

Primary Lists

- Continued support for additions and amends
- Other Legislation and Industry List migrated to Additional
- Support overhead is predictable and rational

Additional Lists

- Legislation with increased scope and divergent criteria
- Higher overhead and investment required to support

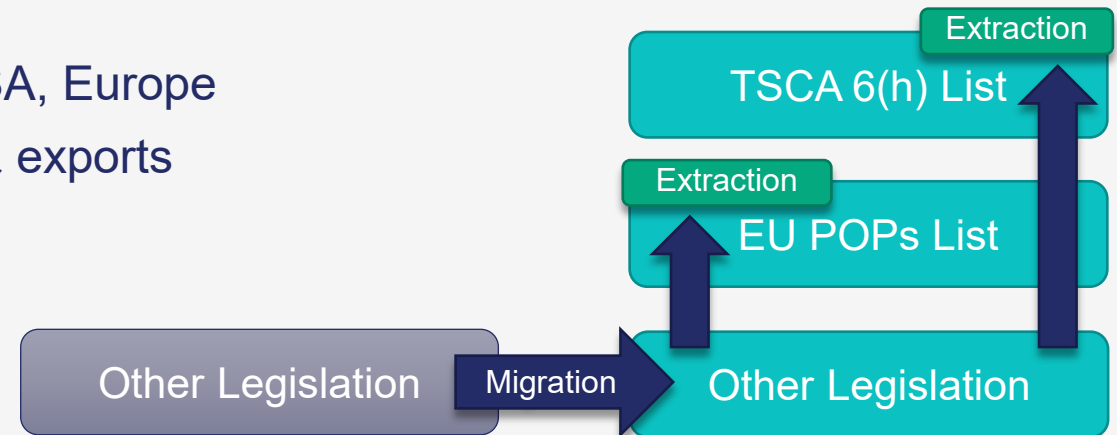

List Migrations and POPs/TSCA List Extractions

Current:

- Manufacturers need to request suppliers complete Other Restricted and Declarable substance list to discover TSCA Section 6(h) & POPs compliance status
- Bucket list contains many different unrelated regulations – can cause confusion for suppliers

Extraction:

- Will allow Manufacturers to send requests directly for TSCA Section 6(h) & POPs
- Reduces burden on suppliers
- Allows Manufacturers to just survey for products in USA, Europe
- POPs & TSCA summary compliance in retrieve data & exports

Account Types & List Support Clarity

Milestone	List Support
Previous functionality	All lists are supported as in previous versions and years (Business As Usual)
BOMcheck Professional launch (v8.0 off-cycle June 2024)	EXTRACT of PFAS entry from Industry List to BOMcheck PFAS List in the Additional Lists grouping. Introduction of PFAS IEC list in the Additional Lists grouping.
>6 months after BOMcheck Professional (v8.3 ~Feb 2025)	Other Substances and Industry List MIGRATE to Additional and EXTRACT regulatory aligned (POPs, TSCA etc. as discussed with BOMcheck #SteerCo/#SubCo)

Subject to change with notice

- All Primary Lists will be available to:
 - **Manufacturer Suite and Supplier** for declaration, supplier requests and retrieve data tools
 - **Manufacturer Access accounts** for retrieve data tools
- All Additional Lists will be available to:
 - **Supplier accounts** for declaration and request forwarding
 - **Professional Suite accounts** for declaration, supplier requests and retrieve data
 - **Manufacturer Access and Suite accounts** will not have access to Additional Lists

Migration & Extraction | BREAKING CHANGES

Please note that the Migration and Extraction amendments constitute “breaking changes” based on new XML identities to the following BOMcheck LoDS:

1. Other Restricted or Declarable Substances
2. Industry Declarable Substances

Additionally, there will be two new lists in exported XMLs (for BOMcheck Professional Customers):

1. Persistent Organic Pollutants (POPs) Stockholm Convention
 - **1752A:** "POPs_Stockholm_Convention"
 - **1752B:** "IPC-1752B/POPs_Stockholm_Convention"
2. Persistent, Bioaccumulative, and Toxic (PBT) Chemicals under TSCA Section 6(h)
 - **1752A:** "TSCA_Section_6(h)"
 - **1752B:** "IPC-1752B/TSCA_Section_6(h)"
